

HYBRID  
EVENT

**Mayors' Round Table  
discussion on ICTs at  
WSIS Forum 2022**

**30 May 2022  
11:30 - 12:30 CEST**

ITU Headquarters  
Place des Nations  
1211 Geneva 20

For the first time, an entire day of the high-level week of the World Summit on the Information Society Forum 2022 will be dedicated to the participation of Mayors and Local Authorities. The WSIS Forum of the International Telecommunication Union has proven to be an efficient mechanism for information exchange, creation of knowledge and sharing of best practices on multi-stakeholder implementation activities regarding innovative information and communication technologies (ICT).

Join the Mayors' Round Table. This event is restricted to Mayors to discuss "Challenges and best practices of innovative ICT solutions for urban development in a post-COVID19 world", The discussion will be held at ITU Headquarters in Geneva, Switzerland in person and will be accessible online for remote participation.

The aim of this mayors-only format is to discuss freely local and national experiences and best practices to identify and scale up technology and innovative solutions in the ICT sector for cities and local authorities in different areas of e-government, such as e-health, e-education, employment, and digitalization of services in a post-COVID 19 world.
